

KAUMAN ATLAS

What's happening in Kauman?

Kauman is historically one of Solo's centers for batik production. It is very centrally located alongside the Kasunanan Palace and Pasar Klewer market. The large Masjid Agung is located there. It is a popular destination for batik buyers.

Kauman's Location in Solo

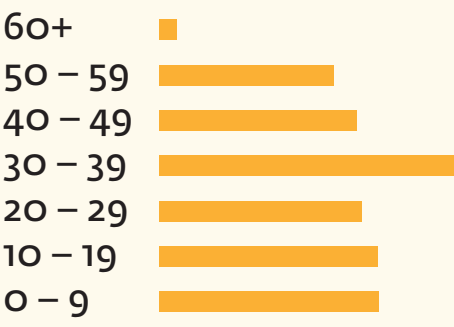

This Mini Atlas collects information about Kauman so everyone can see and understand what is going on. Information

KAUMAN FAMILIES PROFILE

Population = 3,484
Households (HH) = 739
Average HH size = 4.7

Pop. by Age

about the condition of services can help people discuss what they want from the annual participatory budgeting process, *musrenbang*. Our goal is to make citizens more informed about their communities.

ASSETS

What are Kelurahan assets?

- ✓ Strong identity as batik center
- ✓ Good access to public services
- ✓ Largest mosque and religious center

What are potential issues?

- ✓ Batik production can affect ground water quality
- ✓ Area becoming more commercial
- ✓ Limited access by vehicles

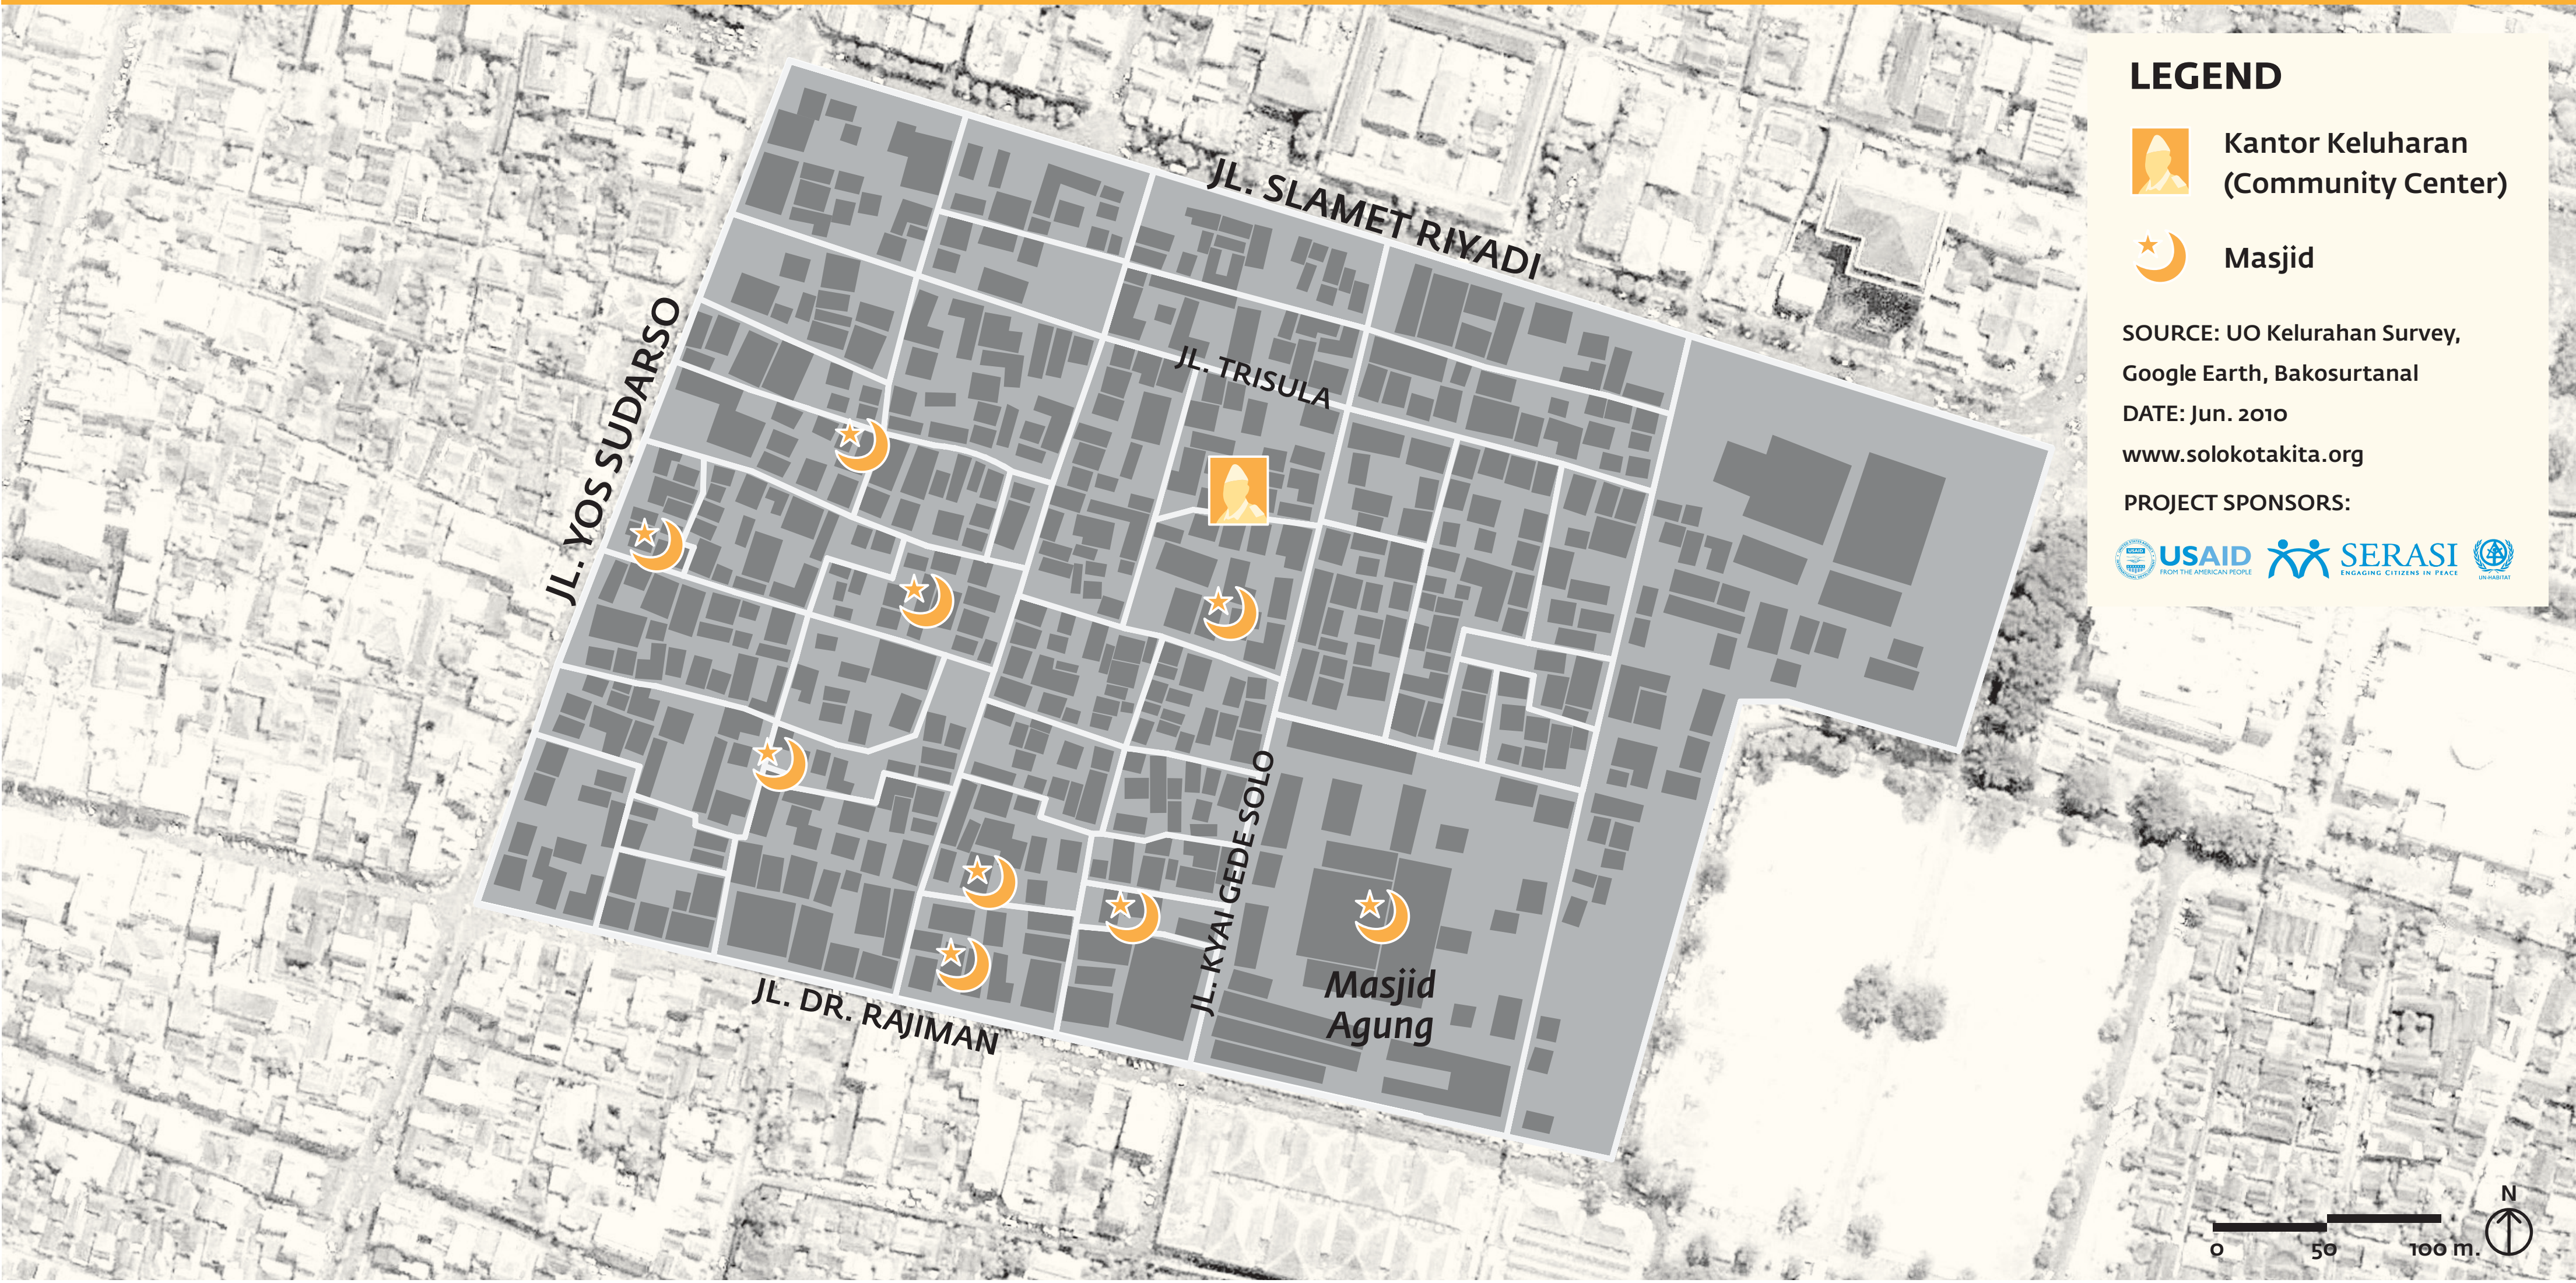

Pasar Klewer is one of the City's Important Markets

While batik production is declining in Kauman the Kelurahan draws visitors who come to buy and trade. Tourism is growing in Kauman.

KAUMAN NEIGHBORHOOD MAP

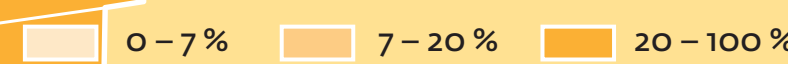

EDUCATION

Of 343 school-going age children in the Kelurahan, only three are out of school. This is 1%, which is very low compared to the Kecamatan average of 7%. This is good for the community since it means many children are getting educated.

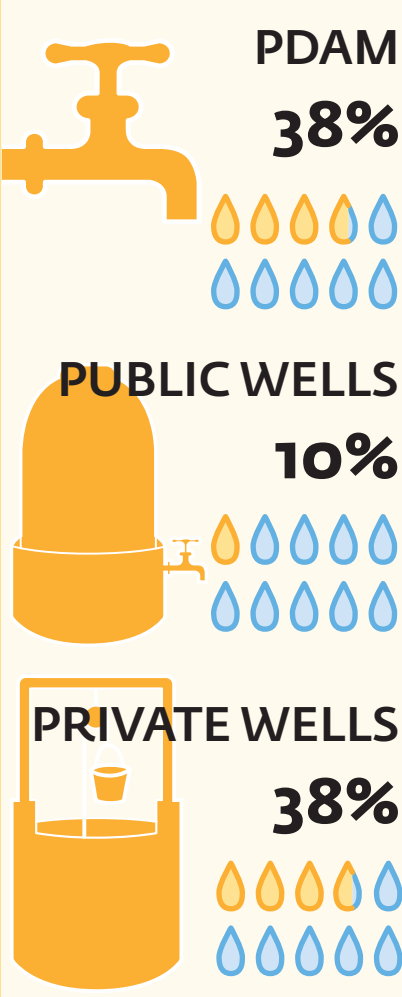

OUT OF SCHOOL 1% of children

% AGE 7 - 18 NOT IN SCHOOL

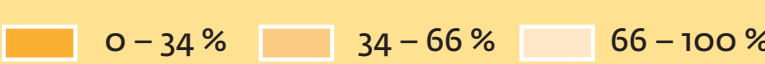

WATER

Since reliance on wells is high are there concerns about ground water quality?
The batik industry might be polluting the ground water in Kauman.

% HOUSEHOLDS WITH PDAM

SANITATION

PUBLIC versus PRIVATE WC

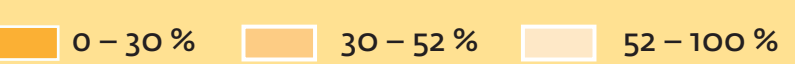

Private WC's are used by 70% of households, this is high compared to the Kec. average of 52%. Use of public WC is 10%, the lowest in the Kecamatan, where the average is 36%.

Public = 10%
Private = 70%
No Data = 20%

% HOUSEHOLDS WITH PRIVATE WC

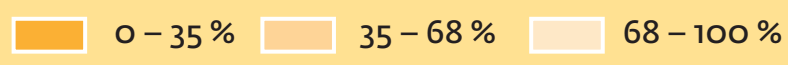

HOUSING

Land tenure is higher than the Kecamatan average of 68%. Land tenure is very high in the west of the Kelurahan, yet near the mosque and market the land tenure is much lower. This is positive since high land tenure means greater stability.

LAND TITLES = 84%

% HH WITH LAND TITLE

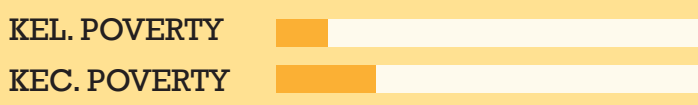

ECONOMY / POVERTY

TOP 4 OCCUPATIONS

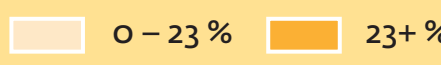

POVERTY RATE = 12%

Poverty is lower than the Kecamatan rate, which is 23%.

% HOUSEHOLDS IN POVERTY

HEALTH

COMMON HEALTH PROBLEMS

- 1 - Influenza
- 2 - Diarrhea
- 3 - Dengue

Overall health is good in Kauman, residents have good access to health services, water and sanitation. However, residents express concern about water quality since batik production may pollute ground-water.

TOP HEALTH ISSUE

Poor drainage can cause health problems during the rainy season - such as water borne disease.
